Superintendent Evaluation

Why Evaluate?

There are three primary reasons to evaluate the superintendent: alignment, communication, and accountability. It is much easier for me to lead and for the board to hold me accountable when the goals are clearly articulated, agreed upon and accompanied by agreed-upon objective performance measures.

Who Should Evaluate?

The superintendent should be evaluated by the full board sitting as a board. When the board acts on the superintendent's evaluation, as in everything else the board does, it speaks as a corporate body, not as nine separate voices.

When Should the Evaluation Occur?

The board either in its employment contract with the superintendent or in its policies should establish a schedule for evaluating the superintendent (assessment of performance section of the contract is included at the end of this document).

What Should an Evaluation Instrument Include?

The evaluation of each area of responsibility is assessed against the indicators. The indicators are designed to make the area of responsibility more concrete and identify the kinds of things that would be accepted as evidence of having met the responsibility. It is suggested that board use a Likert scale of 1-5 in rating the superintendent's performance against each area.
