

North Schuylkill School District
2026-2027

Our mission is to provide our students with opportunities designed to meet individual needs and to ensure that every child has experiences that promote growth and excellence in all academic and social development areas. Through mutual respect, our students will grow and learn in a positive atmosphere, where faculty, staff, parents and students together are enthusiastic about the learning process.

LANGUAGE INSTRUCTION EDUCATION PROGRAM
2026-2027 School Year

I. Goals and Objectives

The goal of the **North Schuylkill** School District is to provide Language Instruction Education Program (LIEP) for each student whose dominate language is not English for the purpose of facilitating the student's achievement of English proficiency and to meet the academic standards under Chapter 4.12.

1. English learners acquire full proficiency in English at or better than expected growth.
2. Decrease in the number of Long-term ELs not making progress in English language proficiency.
3. Classroom teachers and administrators understand and accept the specific language acquisition needs of ELs and actively seek ways to better serve this population.
4. Non-English parent(s) are provided access to participate in their child's education on an equal basis as their English-speaking peers (communication in a mode and language they can understand, timely notification of the English Language acquisition progress of their child, opportunities to participate in district programs)

II. Student/Parent Orientation

The ESL Staff will assist with student acclimation. The orientation program for parents and students may include but is not limited to the following:

- a tour of the building
- review of school procedures: homework, attendance, etc.
- review of the LIEP
- review of content area classes
- review of special programs available
- meeting with administration, guidance counselors, and faculty (when possible)
- review of extracurricular activities
- a question/answer period

District and IU 29 staff will provide these orientations to the students and parents in their preferred mode of communication and in the language they are able to understand.

III. Student Identification and Placement

Enrollment:

For specific enrollment requirements and procedures see Basic Education Circular (BEC) entitled Enrollment of Students.

Identification:

- Parents, Student Guardians, and/or students complete a Home Language Survey (HLS) upon registration with the **North Schuylkill** school district. (See Appendix A: HLS).

If the HLS indicates a language other than English for **any** question, **proceed to STEP 2** of the English Learner Identification Procedure. (See Appendix B: EL Identification Procedure)

Those students who are identified as needing to be placed on the PHLOTE list as per the EL Identification Procedure should be referred to the appropriate Schuylkill IU 29 Supervisor for language proficiency screening as required by federal law. The district is responsible for notifying parents or guardians of assessment and placement information. (See Appendix D: Parent Notification : English Learner Program Placement Initial Placement Form))

Assessment:

Initial identification and reclassification:

The IU29 Supervisor will assess newly enrolled students without academic records for their English language proficiency within 30 days of the beginning of the school year and within 14 days during the school year using the following instrument:

- WIDA SCREENER - The WIDA Screener is an English language proficiency assessment given to incoming students in Grades 1–12 to assist educators with the identification of students as English Learners (ELs). The purpose of this assessment is to help educators make decisions about whether a student is a candidate for English language support services.
- WIDA Screener for Kindergarten is an English language proficiency assessment given to incoming Kindergarten students.

For students that come with academic records they will be evaluated for English Language Proficiency.

Placement:

Criteria for placement into the **LIEP** can be found in the EL Identification Procedure K-12 in -Appendix B.

After it is determined that the student requires ELD instruction, a recommendation for age/grade appropriate placement, as well as classroom strategies, grading, and parent involvement, will be made by the ESL team. The ESL Team may include the Principal, ESL Teacher, ESL coordinator, IU 29 Supervisor, classroom teacher, and guidance counselor. **Parents will be notified of eligibility using the Parent Notification: English Learner Program Placement Initial Placement Form. (See Appendix D)**

Students will be assessed periodically via formal and informal testing. A variety of factors will determine the length of ESL instruction and support services, e.g., age, language competency, rate of progression, and the support and techniques used by classroom teachers in teaching content areas.

Criteria for placement into the LIEP program for Dual Language Learners (Pre-K) can be found in the Dual Language Learner Identification Procedure in the Appendix (B).

IV. Instructional Program

The district language instruction program is based on Pennsylvania's PreK-12 English Language Development Standards (ELDS), the WIDA Performance Definitions, WIDA Can Do Descriptors, and PA Core Standards providing a framework for standards-based instructional and assessment planning for English learners so that they may attain English proficiency, develop high levels of academic attainment in English, and meet the same challenging commonwealth academic content and student academic achievement standards as all children are expected to meet. Content teachers will be supported by ESL teachers with techniques and strategies to make appropriate accommodations to instruction and assessment for successful academic achievement of ELs. The ESL teacher will orient the content teachers prior to the start of the school year about realistic expectations for all students in their classes.

We take an eclectic view of the evidenced-based theories but primarily a social interactionist view where the learner discovers the meaning potential of language by participating in communication; one of the most salient and significant modes of discourse is conversation. Zone of Proximal Development and Comprehensible Input Strategies are used as scaffolds such as questioning techniques, modeling, and demonstrations to assist the learning process using all 4 domains of listening, speaking, reading, and writing to create classrooms where students' lives and experiences are valued, and they explore the multiple functions of literacy, reading and writing to satisfy their own needs and goals. The repetitiveness of the Behaviorist model is used for reinforcement. Explicit vocabulary instruction using vocabulary words based on grade-level content is very important in accelerating EL students' English language development. A competency framework for English Language Proficiency provides the backbone of the program. (Appendix L) In addition, an ELD curriculum map outlines ELD instruction.

Planned Instruction for ELD Classes:

North Schuylkill School District will run a Language Instruction Education Program (LIEP). An ESL team reviews student background information and test results. An instructional plan will be developed that is appropriate to the student's language proficiency level and congruent with the District curriculum, which will include EL-Specific English-only Instruction and/or Mixed Classes with English-only Support. The student will be placed in the LIEP during non-core instructional time in most circumstances depending upon the needs of the student. The student will be placed in the regular education program for all other subject areas and activities. ELD instruction is part of the daily schedule and thoughtfully planned from the administrative level. As the proficiency of the student advances, a student may require less ELD specific instructional time. The number of recommended instructional hours will be determined by the student's needs.

The total number of hours of ELD instruction varies according to students' needs and language proficiency level. ELD instructional time is determined by the results of the intake interview and initial assessments. Those qualified as an EL receive instruction as follows:

- a) Students designated as WIDA Level 1 receive up to ten hours of weekly ELD instruction depending on a district's schedule

- b) Students designated as WIDA Level 2 -5 receive up to five hours of weekly ELD instruction depending on a district's schedule

Planned Instruction in academic content areas:

North Schuylkill School District will provide ELs with meaningful, comprehensible access to instruction in all content areas required by PA core standards. The PA ELDS PreK-12 is an overlay to the academic standards and will be incorporated in planned instruction for ELs by all teachers. The district will support instructional planning and evaluation efforts between the ESL teachers and content area teachers by providing opportunities for collaboration as appropriate.

Reclassifying Students:

- i. An EL must demonstrate the ability to access challenging academic content and interact with other students and teachers both academically and socially in an English language setting in order to be considered for reclassification. Evidence of this ability is demonstrated by the student on the annual English language proficiency assessment, ACCESS 2.0 for ELLs®, and gathered by teachers using standardized language use inventories.
- ii. Two language use inventories must be independently completed. An ESL teacher must complete one of the inventories when possible. The other inventory may be completed by a single content teacher or a team of content teachers. In cases in which an ESL teacher cannot complete an inventory both inventories may be completed by content teachers or teams of teachers. If only one teacher can accurately complete the inventory one inventory may be completed and the single score is multiplied by two.
- iii. The language use inventories must be completed prior to the release of ACCESS scores each year for students who, based on teacher input and previous ACCESS scores, are likely to reach the threshold. Once ACCESS scores are released, the points are added to the points from the rubrics to determine if students are eligible to be reclassified. If the score exceeds the state-defined threshold, then the student is eligible to be reclassified. **Parents will be notified of reclassification using the Notification of Monitor Status Form. (See Appendix H)**

Assurance of implementation of the reclassification criteria will take place within the Federal Programs Consolidated Monitoring Plan.

Monitoring Students

The progress of Former English Learners (FELs) will be actively monitored using the monitoring forms in the Appendix (I) for the first two years of monitoring. The ESL teacher will collaborate with the content teacher when filling out the monitoring forms four times a year for each monitored student. ELs will continue to be reported to the state for an additional two years via PIMS (total of four years of monitoring status).

Exited Students

Following the monitoring process, the student will exit the ESL program and no longer receive ESL support. A letter will be sent to the parents indicating the recommendation to exit. (Appendix J: Notification of Exit)

Re-designating former ELs

If it is determined during the active monitoring phase that an EL is struggling academically as a result of persistent language barriers, the student will be re-designated as an active EL and re-enrolled in the LIEP. A meeting will be held with the ESL Team and parent of the EL and demonstrate that the FEL is struggling as a result of persistent language acquisition needs and not academic needs, which require academic supports and/or interventions.

FELs who have been re-designated as active ELs must meet the state-required criteria to be reclassified as FELs. In cases such as these, the monitoring process starts over from year 1 upon the second reclassification.

Grading/Retention Policy:

ELs will be graded using the same grading system as all other students. Grades will reflect what the students know and are able to do at their level of English language proficiency. Grading will also reflect the collaboration and coordination of supports by both ESL teachers and content area teachers.

ELs and those being monitored are not to fail a class or be retained based solely on their lack of language proficiency; however, they can on the basis of excessive absenteeism, unwillingness to participate in class, and consistent refusal to do homework.

If an EL is retained in a grade, the district will be able to demonstrate that the appropriate modifications were made to instruction and assessment in order to allow ELs meaningful access to the general curriculum as well as to promote second language learning.

V. Parent Right to Refuse Specialized Programming

Parents of ELs have the right to refuse certain separate, specialized programs and services that may be part of the LIEP for their children. Parents of Identified English Learners will be informed of their rights to refuse ELD services in the annual notification letter. If parents choose to opt-out, the English Language Development Program Parental Waiver Form will be given to the parent (See Appendix C). Placement and programming decisions will not be made without notifying parents and allowing them to exercise their right to refuse part or all of the separate, specialized LIEP. The district will proceed with the recommended placement in the absence of a response from the parent after they have provided the parent with all of the information outlined above. If the parent chooses to opt-out, the EL is still required to take the ACCESS 2.0.

VI. Participation in District Testing

The North Schuylkill School District shall conduct the following assessments for additional information:

- Student observation
- Standardized tests
 - a. (PSSA Assessments)
 - b. (Keystone Exams)
- Classroom tests, quizzes, participation
- Multiple formal and informal assessments

Procedures for ELs for State Required Assessments: (see annual PDE Accommodation Handbook for official guidelines)

- a. All limited English proficient students beyond their first year of enrollment in US schools are to be included in the PSSA assessment.
- b. Limited English proficient students who are in their first year of enrollment in US schools do not take the PSSA ELA and Keystone Literature assessments. (A student's enrollment in a school in Puerto Rico is not to be considered as enrollment in a U.S. school.)
- c. Reclassified ESL students may be classified in the EL subgroup during the two-year monitoring process.
- d. English Learners should receive appropriate accommodations as outlined in PDE's Accommodation Handbook. (Appendix F: PA Required Testing Accommodation Record for ELs)
- e. A Spanish version of the PSSA Math and Science tests will be available as an accommodation for a student whose dominant language is Spanish. The student must have been in U.S. schools for less than 3 years and must be proficient and schooled in Spanish.

Annual English Language Proficiency Testing: <https://wida.wisc.edu/assess/access>

The annual state English Language Proficiency (ELP) assessment, ACCESS 2.0, is required by federal law. The results of the state ELP assessment are used to measure students' English language proficiency and progress in each of the four language domains (i.e. reading, writing, speaking and listening/understanding). The LEA must maintain these score results in the student's permanent record folder. **Scores are shared with parents annually using the Parent Letter for Scores. (See Appendix E)**

There is no provision that allows parents to opt their children out of annual ELP testing.

All ELs receiving ELD instruction during the designated test window will participate in Pennsylvania's annual English Language Proficiency testing. Students who have been reclassified or are being monitored do not participate in this yearly test.

VII. Student Participation in Related and Extra-Curricular Activities

All students are encouraged to participate in a variety of extra-curricular activities offered by the district. The ESL team will monitor ESL students regarding their participation in extra-curricular activities.

VIII. Pupil Services

Counseling:

ELs will have access to counseling services in order to assist in their adjustment to a new culture and placement in the school program with peers.

Instructional Guidelines for ELs with Disabilities:

The ESL teacher will be a member of the Individualized Education Program (IEP) team when the student is an EL. ESL teacher input will provide essential guidance to the IEP team related to the process of second language acquisition, parent communication, cultural responsiveness and reduction of a language barrier. In addition, the ESL teacher will fulfill the IEP team member requirement of having a person: (1) with knowledge about the general education curriculum (LIEP and ELD instruction), (2) to interpret the instructional implications of evaluation results, and (3) with knowledge or special expertise regarding the student.

The ESL teacher will be a member of the evaluation team as well. Assessment data, such as the data from classroom observations, progress monitoring, and the results of formative and summative assessments, including data from the annual English language proficiency assessment, will be discussed and be part of the evaluation. The evaluation team will consider other data sources such as years in the US, years of instruction in English, and level of English language proficiency per WIDA Screener and/or ACCESS. Data related to the second language acquisition process will be part of the present levels indicating how the student is performing in listening, speaking, reading and writing skills, and how he/she compares to the other ELs with similar profiles, as well as how he/she progresses in relation to what is developmentally appropriate for the English proficiency level of the student per the WIDA Can-DO descriptors and the WIDA Summative Assessment Framework. The expertise of the ESL teacher will be necessary to determine valid recommendations regarding evaluation/placement and on-going ESL instruction for ELs.

Prior to referral of an EL for evaluation, the district will ensure that the ESL program involves planned instruction by a properly certified ESL teacher and adaptations/modifications in the delivery of content instruction by all teachers. The following will be considered and evidence of such will be available: 1)

ESL instruction is sufficient in quantity and quality, 2) the core ESL program is effective and aligned to the proficiency level of the student, 3) appropriate adaptations/accommodations are provided by content teachers, 4) collaboration exists between the ESL and content teachers, and 5) instruction/home-school communication are culturally responsive.

All ELs who are eligible for special education may continue to receive ELD instruction at their appropriate English language proficiency and developmental levels. The IEP team determines how ELD instruction and special education services can be coordinated and delivered to meet the students' individual needs. Based on these individual needs, ELD instruction will range from full inclusion in an LIEP to consultative support. Programs will collaborate to ensure that both the language needs and special education requirements are met.

When developing an IEP for an EL, the IEP team may deviate from the guidelines listed in Section IV. The determination of direct instruction time for a student with a disability is based on the student's English language proficiency level, the nature of the student's disability, and the IEP team's decision based on those factors. For students with significant cognitive disabilities that have not acquired any language skills, the IEP team may determine that the consultative model is most appropriate for the student.

ELs with Suspected Gifted Abilities:

ELs are eligible for gifted identification per district guidelines. The ESL instructor should provide input to the evaluation and eligibility of gifted identification.

Migrant:

Students identified as migrant and who are English learners will be provided ELD instruction, as would any other student who would be eligible for ELD instruction. The District will receive a list of migrant students annually from the Migrant Education Program personnel.

Vocational-Technical Education:

English learners will have access to vocational-technical education classes. Participation in such classes is not to be determined by their level of English proficiency. Necessary accommodations will be made and students will be provided ELD instruction by an ESL certified teacher in addition to content teachers appropriate to their level of proficiency.

Federal and Other Programs:

English learners may participate in all federal or other programs for which they qualify. An ESL team will direct collaboration of services at **North Schuylkill**.

IX. Staff Development Related to Program

District Staff:

All Principals and secretaries receive continual reminders, provided by the Schuylkill IU 29, focusing on policies and procedures for the education of ELs.

When requested, all new administrators, teachers and support staff will receive an Introduction to ESL training focusing on the BEC, procedures for enrollment and cultural awareness provided by the Schuylkill IU 29.

ESL Staff:

All ESL staff will meet the requirements of Program Specialist – ESL certificate as stated by the Pennsylvania Department of Education and will be English certified or working towards English certification if providing the sole English instruction at the secondary level.

ESL staff will receive appropriate training to teach ELs. Schuylkill IU 29 or other professional development providers will provide training as listed in the Act 48 plan.

This training will focus, but not be limited to the following:

- ELD methods
- second language acquisition
- cross-cultural processes
- adapting content area instruction

Content Area Teachers:

Content area teachers will have access to in-service on the following:

- cultural information
- second language acquisition
- adapting/modifying classroom instruction
- appropriate assessment practices

New Hires:

New teachers will receive diverse learner training as part of the Schuylkill IU 29 Induction Training. Additional new staff, such as administrators or support personnel, will receive training as requested by the district.

X. Funding

The district budget will include provision for resources/materials, staffing for language instructional programs, and professional development for all school personnel as part of the responsibilities of the district. Federal funds can be used to supplement local funding for language instructional programs, but not to supplant state/local funds.

XI. Title III

The district will monitor annual Title III allocations and make appropriate decisions as to apply for the funding, join a consortium or decline funding. Schuylkill IU 29 will serve as the lead of the Title III Consortium and follow all federal guidelines.

XII. Community Involvement

Program planning will be a collaborative effort between administrators and Intermediate Unit 29 ESL staff. In communicating with parents in the home, parents will have the option of receiving written information about assessment, academic achievement, and related issues, in their native language or their preferred mode of communication.

If a parent wishes to make suggestions or requests for alteration about any facet of the LIEP they may contact the District Superintendent or Intermediate Unit 29 Supervisor.

XIII. Communications with Parents

The district will communicate with parents in the parents' preferred language and mode of communications. The district may utilize IU 29 translation/interpretation services and documents from PDE and PaTTAN.

Quarterly ELD Progress Reports (Appendix M) should be sent home to parents to keep them aware of their child's growth toward achieving proficiency in English.

XIV. Program Evaluation

An annual evaluation of the LIEP will take place to ensure the LIEP is tailored to meet the needs of individual students (see Appendix K: Review of School District ESL Program or an alternate program evaluation can be used) Data to help monitor the program will include but is not limited to the following.

XV. Monitoring

State Reporting:

The district will submit data as required into the PIMS/ELR System. ELP Status of students enrolled at the beginning of the school year must be determined by September 30 and reported in the PIMS October District and School Enrollment Collection.

HOME LANGUAGE SURVEY

ALL newly registering students regardless of race, nationality, or language origin MUST complete this form. Federal law requires that all Local Education Agencies (LEAs) utilize a non-biased procedure for identifying which students are potential English Learners (ELs) in order to provide appropriate language instruction educational programs and services. Given this responsibility, LEAs have the right to ask for the information contained on this and other forms associated with the identification process.

- ☐ **STEP 1:** Review the Home Language Survey.
- If the HLS indicates a language other than English for **any** question, **proceed to STEP 2.**

NOTE: Pidgin and creole variations of English (e.g. English spoken in Liberia or Cameroon) constitute a language other than English for identification purposes.

- ☐ **STEP 2:** Conduct family interview to determine if the student is potentially an EL. Use an interpreter if necessary.

☐ Always ☐ Occasionally ☐ Never

7. When interacting with siblings or other children in their home, how often does this student hear or use a language other than English?

☐ Always ☐ Occasionally ☐ Never

Review of the family interview must be conducted by an ESL professional.

Based on the answers to the interview questions, determine if the second language exposure/use is significant and tied to the national origin of the student/parent(s)/guardian(s) or is superficial in nature. Ensure that the parent/guardian understands the HLS and has completed it accurately during the parent interview. The HLS cannot be completed again at a later date. If the student's development of English may have been impacted by exposure to another language in any way, then **proceed to STEP 3**.

Comments:

☐ **STEP 3:** If the student has an IEP or is suspected of having a disability (e.g. the parent states that the student has a disability), then see [Appendix A](#) before proceeding.

☐ **STEP 4:** Conduct a review of the student's academic records from previous schooling if available. Look for compelling evidence that the student has sufficient English proficiency to benefit from instruction in English without specialized supports or accommodations. Acceptable evidence might include scores from standardized summative or interim tests in English, passing grades for core content classes conducted in English, and/or work samples. If the academic records are not available, or they do not contain compelling evidence of English proficiency, then **proceed to STEP 5**.

NOTE:

*A newly enrolling student who has an ACCESS overall composite proficiency level score from the previous school year (even from another state) that does not meet or exceed 4.5 may not be re-screened for the purpose of identification. In this case, **skip to STEP 6**. If a student has an ACCESS overall composite proficiency level score from the previous school year that meets or exceeds 4.5, then the student may be reclassified if the additional criteria from the state-defined reclassification guidance are met (i.e. language use evaluations can be conducted prior to October 1).*

*If a newly enrolling student has an ACCESS overall composite proficiency level score from a previous district that is more than one year old (i.e. two or more years prior to the current year), then **proceed to step 5** (screening) to determine the EL status. If the student exceeds the cut score for identification as an EL, then the student may be coded as never-EL and the identification process is complete.*

- ☐ **STEP 5:** Screen the student for English language proficiency using the K Screener, K MODEL, WIDA screener (online or paper), or WIDA MODEL screener. Record the screening scores below. See Appendix C for information about the appropriate test form to administer.

If the student's scores meet the criteria for identification as an EL on the following table, then **proceed to STEP 6**. If not, then the student is not an EL and you do not need to proceed.

Grade Level	Screener	Criteria for identification as an EL
Kindergarten	K MODEL	<i>1st semester K: Assess all 4 domains</i> Oral language composite below 5.0 (<i>Use literacy scores for instructional plans</i>) <i>2nd semester K: Assess all 4 domains</i> Overall composite proficiency level below 5.0 AND Literacy Composite below 4.0
1-12	WIDA Screener	Overall composite proficiency level below 5.0
1-12	MODEL Screener	Overall composite proficiency level below 5.0
K-12	Alternate Screener*	Overall composite proficiency level below 4.0

* See the Alternate Screener guidance on the Identification of ELs webpage for eligibility and use information.

NOTE: If a student is unable to complete the full screener (e.g. because of a disability or refusal), then the determination of EL status must be made based on the remaining available evidence gathered from the HLS, parent interview, and academic records review. If reasonable evidence of English proficiency cannot be established based on those sources along with the incomplete screener results, if any, then the student should be identified as an EL.

- ☐ **STEP 6: OPTIONAL** - Screen the student for native language proficiency if a screening instrument is available. Record the score(s). If no screening instrument is available, then **proceed to STEP 7**.

Name of screener	Score(s)	Score descriptor

- ☐ **STEP 7:** Determine if the student has **limited or interrupted formal education (LIFE)** using the criteria below:

- Is enrolling after grade two, AND
- Has a Literacy score of less than 3.5 on the MODEL Screener, or WIDA Screener, AND
- Has at least two fewer years of age appropriate schooling than peers **or** has disenrolled from U.S. schools to enroll in schools in other countries (including Puerto Rico) more than two times in the past four years, AND
- Has limited encoding/decoding skills in native language (as indicated by family interview and/or native language measures and/or review of academic records and/or local measures)

Does this student have limited or interrupted formal education?

☐ YES

☐ NO

Proceed to STEP 8.

- ☐ **STEP 8:** Determine the most appropriate language instruction educational program (LIEP) based on the student's English language proficiency and native language proficiency if available.

NOTE: If the student has an IEP, then EL and Special Education personnel MUST collaborate to determine program and academic placement.

Program Placement: [Click here to enter text.](#)

Proceed to STEP 9.

- ☐ **STEP 9:** Provide parent with a detailed program description and explain identification and placement decision. Parent has the right to refuse placement in a specialized, separate LIEP. See [PDE guidance concerning parental right to refuse services](#). **Proceed to STEP 10.**
- ☐ **STEP 10:** Parent accepts or refuses placement in part or in whole in the LIEP. If, after the district notifies the parent of their option to refuse specialized LIEP services, the parent does not respond, then the district may proceed with the recommended program placement. **Proceed to STEP 11.**
- ☐ **STEP 11:** If your district participates in Title III, explain the services offered and their right to opt out of all or some of those services. If, after the district notifies the parent/guardian of their option to opt out of Title III services, the parent does not respond in a timely manner, then the district may proceed with enrolling the student in the Title III services. Proceed to STEP 12.
NOTE: This applies to discrete services/programs (e.g. after-school tutoring, summer school programs, the use of technology purchased with Title III funds, etc.). If, for example, Title III is being used for professional development for staff working with ELs, then there is no discrete service of which parents may opt out.

- **STEP 12:** Notify receiving school of student identification and placement. **Proceed to STEP 12.**
- **STEP 13:** Initiate an active service record in the district SIS. If the student has limited or interrupted formal education, then ensure that LIFE is identified. **Proceed to STEP 13.**
- **STEP 14:** Schedule the student based on program placement and English language proficiency.

NOTE: The school is responsible for ensuring that all teachers with whom ELs are scheduled have English language proficiency information for their ELs. *This includes general education teachers.*

The procedure is complete. Attach HLS form and parent refusal acknowledgement form (if completed) to this form and file in student's record. Copies of this form should be given to ESL and general education teachers who will be working with this student.

Appendix A

Students who have or are suspected of having a disability

If a student arrives with an IEP or is suspected of having a disability (i.e. parent informs enrollment personnel that the student has a disability), then enrollment personnel must coordinate with Special Education staff to complete this procedure. *NOTE: The identification process must be completed within the timelines prescribed in this procedure.*

If the student arrives with an IEP:

Screening, if required, must be completed with appropriate accommodations and the test results must be interpreted in consultation with Special Education personnel.

If the student is suspected of having a disability but a determination cannot be made prior to completing this procedure:

Screening, if required, must be completed with any administrative considerations, universal tools, or accommodations that the ESL/SPED educators deem necessary. This procedure must be completed in accordance with the outlined guidelines and the student must be placed in the appropriate language instruction educational program (LIEP) based on the information available at the conclusion of the identification procedure.

If, after the student is placed in the LIEP, the student is determined to have a disability that may have affected the screening (e.g. requires a testing accommodation that was not offered), then the student must be re-screened using the appropriate accommodations. If the student does not meet the criteria for identification as an EL based on this subsequent testing, then the district must contact PDE to remove the EL identifier and the student should be removed from the LIEP.

If a student cannot complete all domains of the screener due to a disability:

The determination must be based on the domains that can be completed by applying the appropriate cutoff score to all completed domains individually. For example, if a 4th grade student can only complete the reading and writing domains, then he/she must achieve a proficiency level of 5.0 or above in both reading and writing to exclude them from identification as an EL.

If a student cannot complete any domains of the screener due to a disability:

The identification decision must be based on the available evidence gathered from the home language survey, the family interview, and the records review. If the HLS indicates a language other than English, the family interview confirms that it is tied to national origin and significant, and academic records do not supply evidence of English proficiency, then the student should be identified as an EL.

Appendix b

* For second semester kindergarten students and first grade students who take the kindergarten screener, BOTH oral language domains must meet or exceed 5.0 AND literacy domains must meet or exceed 4.0.

Note A:

A student who comes from an environment where English is not the dominant language or who has been exposed to another language (HLS indicates other languages) is not necessarily an EL and does not necessarily need to be screened for English language proficiency if there is compelling evidence suggesting that the student is proficient in English. Parent permission to screen for language proficiency is NOT required; however, a parent interview must be conducted prior to screening. The parent interview should be standardized to some degree (see parent interview on pages 1 and 2) and the information gathered should be filed with the student's other enrollment documentation. The parent interview can serve to determine whether or not to screen a potential EL. If the evidence gathered during the parent interview is indeterminate, then an academic records review may be used to indicate English proficiency and preclude screening.

Note B:

If after the parent interview it is unclear whether or not a student should be screened for English proficiency, then a thorough review of any available academic records should be conducted to find evidence of English language proficiency. Some examples of this type of evidence are:

- **Transcripts from previously attended U.S. schools with passing grades in core content classes**
- **Statewide assessment results from previously attended U.S. schools indicating English proficiency (may be from other states)**
- **District assessment results from previously attended U.S. schools indicating English proficiency (may be from other states)**
- **Notes and/or other less formal indicators regarding language proficiency contained in the student's academic records**
- **Work samples indicating a level of proficiency equal to the WIDA Performance Level Descriptors for level 5 or higher.**

NOTE: A determination of English proficiency for the purpose of precluding screening MUST be based on compelling and robust evidence and must include all four domains of language (reading, writing, speaking, and listening

Note C:

If the student has an IEP, then EL and Special Education personnel MUST collaborate to determine program and academic placement.

Dual Language Learner Identification Procedure – Pre-K

(See K-12 identification guidance for K-12 students)

- ☐ **STEP 1:** Review the Home Language Survey. If the HLS indicates a language other than English for any question, proceed to STEP 2. If the HLS indicates a language other than English for **all questions**, the family interview is optional and you may skip to STEP 4.

NOTE: Pidgin and creole variations of English (e.g. English spoken in Liberia) constitute a language other than English for identification purposes.

- ☐ **STEP 2:** Conduct family interview to determine if the student is potentially a DLL.

Family Interview

Conducted by district-trained enrollment personnel - not to be completed by the parent/guardian

1. Is this student a Native Alaskan, Native American, or Native Hawaiian?

☐ YES ☐ NO

2. Is this student's language influenced by a Tribal language through a parent, grandparent, relative, or guardian?

☐ YES ☐ NO

3. When at home, how often does this student hear a language other than English?

☐ Always ☐ Occasionally ☐ Never

4. When at home, how often does this student speak a language other than English?

☐ Always ☐ Occasionally ☐ Never

5. When interacting with their parents or guardians, how often does this student hear a language other than English?

☐ Always ☐ Occasionally ☐ Never

6. Within the last 12 months, when interacting with caregivers other than parents/guardians, how often did this student hear a language other than English?

☐ Always ☐ Occasionally ☐ Never

7. When interacting with siblings or other children in their home, how often does this student hear or use a language other than English?

☐ Always ☐ Occasionally ☐ Never

Review the family Interview

Based on the answers to the parent interview questions, determine if the second language exposure/use is significant or superficial in nature. If the child's development of English may have been impacted by exposure to another language in any way, then **proceed to Step 3**.

Comments:

- ☐ **STEP 3:** Review the information on the family interview. If the information from the family interview indicates that English is not the student's native language or that exposure to another language may have had a significant impact on the student's English language development, **proceed to STEP 4**.

STEP 4: Screen the student for English language proficiency **if a screening instrument is available**. Acceptable screening instruments include, but are not limited to, the Pre-IPT, Pre-LAS or Pre-LAS Observational Tool. The prek or early intervention (EI) program must provide the screener if it will be used for this step. Record the screening scores below.

Name of screener	Score(s)	Score descriptor

If no screening instrument is available, then the determination to identify the student as a DLL must be based on the evidence produced by the HLS and family interview. If the evidence suggests that the student's first language is not English and/or that exposure to another language may have had an impact on the student's English development and that the student will most likely need supports to overcome language barrier in order to participate in the academic program, then the student should be identified as an DLL and you should **proceed to STEP 5**.

- ☐ **STEP 5:** Determine the most appropriate language supports that will be provided based on the student's English language proficiency.

Supports to be provided:

- ☐ Specialized English language instruction
- ☐ Native language support
- ☐ Additional language enrichment activities
- ☐ Use of additional/specialized visuals to communicate and convey meaning
- ☐ Pairing student with English-speaking peer(s)
- ☐ Pairing student with native language peers(s)
- ☐ Other: [Click here to enter text.](#)

Proceed to STEP 6.

- ☐ **STEP 6:** Provide the parent(s) with a description of the program and/or the supports that will be provided to their child(ren) and explain the identification decision. Parents have the right to refuse placement in a specialized, separate setting if that is the proposed program design for the DLL. See [PDE guidance concerning parental right to refuse services](#). If the school will **not** place the student into a separate setting based on the DLL status, then **skip to STEP 8**, otherwise **proceed to STEP 7**.
- ☐ **STEP 7:** Parent accepts or refuses placement in part or in whole in the program. If, after the district notifies the parent of their option to refuse specialized services provided in a separate setting, the parent does not respond, then the school may proceed with the recommended program placement. **Proceed to STEP 8.**
- ☐ **STEP 8: ONLY APPLIES TO PROGRAMS THAT REPORT DATA IN THE PENNSYLVANIA INFORMATION MANAGEMENT SYSTEM (PIMS):** Complete the Student/Student Snapshot template in PIMS. In field 41, code the student as *01 – Current EL* (there is no code for DLL in PIMS). In field 45, code the student as *26 – Mixed Classes with English-Only Support* unless another code is more appropriate (e.g. *22 – EL bilingual*). **Proceed to STEP 9.**
- ☐ **STEP 9:** Schedule student based on program placement and English language proficiency.

NOTE: Enrollment personnel are responsible for ensuring that all teachers who will be working with DLLs have English language proficiency information for their DLLs. *This includes general education teachers.*

The procedure is complete. Attach the HLS form and parent refusal acknowledgement form (if completed) to this form and file in student's record. Copies of this form should be given to ESL and general education teachers who will be working with this student.

As required by federal law, your child has taken an English language proficiency test to determine if s/he qualifies for English Language Development (ELD) instruction in order to comprehend daily lessons and participate socially in school. Your child has been tested in English reading, writing, speaking and listening. The test scores indicate that s/he is eligible to receive ELD instruction in a program designed to help students acquire English language proficiency and access grade level content instruction.

Parental Right to Refuse ELD Services: The school has described in detail the ELD program they recommend for my child. I have considered the program(s) offered by the school and have chosen to decline separate, specialized ELD instruction for my child. Specialized services or classes are those provided only for English Learners (ELs), for example ELD pull-out classes, ESL tutoring, after-school English tutoring for ELs or content classes consisting of only ELs. This does not include a class composed of ELs and non-ELs in which ELD is supported through content instruction. By checking (✓) each item below, I acknowledge that I have read and understand each statement.

- ☐ I am aware of my child's English language assessment score and other information about my child's current academic progress, and understand why s/he was recommended for additional English language instruction.
- ☐ My decision to decline or opt-out of specialized ELD instruction is voluntary.
- ☐ The school district will report my child to the Pennsylvania Department of Education as an English Learner (EL) until my child attains English proficiency.
- ☐ Federal law requires that my child will be tested annually with the WIDA ACCESS for ELs 2.0 until s/he attains English proficiency and is no longer considered EL status.

- ☐ The school district will monitor my child's academic progress without benefit of receiving specialized ELD instruction until my child attains English proficiency, and four years after exit from EL status.
- ☐ The school district will continue to inform me of my child's progress in attaining English proficiency.
- ☐ I can change my preference at any time by notifying the school district in writing, and allow my child to enroll in the ELD program(s) offered by the school.

I, [Click here to enter text.](#) (parent/guardian name) with a full understanding of the above information, wish to

- ☐ Decline **all** of the specialized ELD programs and services offered to my child.
- ☐ Decline **some** of the ELD programs and/or particular ELD services offered to my child.

School Location: _____

Dear Parent or Guardian:

Your child has been identified as an English learner. This letter provides information about your child's proficiency in English and the services that the school will provide to help your child become proficient in English and succeed academically. This letter provides information about how we determined that your child is an English learner and other important information.

Education law requires that we provide you with this information and that you understand it. If you need assistance understanding this letter, please contact:

Name: _____

Title: _____

Email: _____

Phone: _____

If you need an interpreter, please tell us and we will make one available to you.

Your child will receive instruction in our school district's language instruction educational program (LIEP), which is designed to overcome language barriers, making content comprehensible, and to help him/her develop their English language proficiency.

When you completed the home language survey at the time of enrollment, you indicated that your child speaks or is/was exposed to a language other than English. We also verified this during the parent interview. Because of this, we gave your child an English proficiency test. Based on the results of this test, your child is eligible to participate in the LIEP. The specific supports and services that your child will receive in the LIEP will be based on the results from this test (initially), how well your child is doing in school, and other educational information about your child that teachers will compile throughout the course of the year.

The LIEP is designed to help your child learn English so that your child will be able to meet academic standards, succeed in school, and eventually graduate from high school. If your child has a disability and an Individualized Education Program (IEP), personnel in the LIEP will work closely with the special education staff to ensure that all supports and services are provided and that they complement each other.

The name of the English proficiency test your child took is:

_____ WIDA Screener for Kindergarten

_____ WIDA Screener

Your student's overall level of English Proficiency is: _____

The highest score possible is 6.0. The level needed to be eligible to exit the LIEP is 4.5 overall composite, along with qualifying scores from teacher observations at the time of exit.

The overall approach to instruction used in your child's LIEP is:

_____ **English-only instruction**

This includes Sheltered English Instruction, Structured English Immersion, and Specially designed academic instruction delivered in English: Instruction is provided in English and adapted to the student's English proficiency level. This instructional method is used to make academic instruction in English understandable to English learners. This will help them acquire proficiency in English while at the same time learning other academic content such as math, science, English language arts, and social studies. English language development instruction may be provided within content classes or separately by an ESL teacher as part of the program.

If direct and separate ELD classes are part of this program, your child will be scheduled for ELD instruction in the form of either a pull out or push in services.

_____ **Other:**

All program categories listed above include supports to make content comprehensible for your child in all classes while helping him/her to develop their English skills.

You have a right to refuse your child's participation in certain specialized and separate components of the LIEP. This right is explained on another form that will be provided to you by the district at the time of enrollment.

Title III Participation (complete only if the district receives Title III funding)

Our district receives funding from the United States Department of Education under a program called Title III. This program provides funding for supplemental services that enhance the existing LIEP in the district. The district uses Title III funds for the following activities:

You may elect to opt your child out of any Title III activities that are not integrated into the academic program at the school. For example, you may opt out of after school programs, summer programs, field trips, or tutoring. However, you may not, for example, opt your child out of receiving the benefits of professional development in which all staff participate.

If you wish to opt out of any of the Title III-funded activities listed above that you may opt out of, you may request to do so, and you will be required to complete an opt out form.

Please contact the person below if you would like to request more information about the LIEP or the Title III supplemental programs available.

Parent Letter on WIDA Scores

DATE:

Dear Parent or Guardian,

This past school year, English Learner (EL) students in grades kindergarten through twelfth grade participated in the administration of the ACCESS for ELLs® language proficiency test. ACCESS provides a standardized measurement of academic language proficiency for EL students throughout the state of Pennsylvania, and in other states. With this information, we will be able to monitor individual EL student progress on an annual basis.

Enclosed you will find your child's results on ACCESS. The Parent/Guardian Report provides information about your child's **English Language Proficiency Level**. This information is for you to review and keep.

If you have any questions regarding this test or the information that is being sent to you about how your child performed on this test, please contact me, your child's ESL teacher, or the school principal.

If you have any questions about our Language Instruction Educational Program (LIEP) or would like to opt your child out of the LIEP, please call the school at _____.

Sincerely,

ESL Advisor

State required Reclassification, Monitoring, and Re-designation of English Learners (ELs)

State required reclassification criteria

Districts must employ uniform procedures in accordance with state requirements for reclassifying English learners (ELs) as former ELs (FELs) when they attain proficiency. This document outlines the procedure and rules for doing so.

An EL must demonstrate the ability to access challenging academic content and interact with other students and teachers both academically and socially in an English language setting in order to be considered for reclassification. Evidence of this ability is demonstrated by the student on the annual English language proficiency assessment, ACCESS for ELLs®, and gathered by teachers using standardized language use inventories. (~~Appendix G1~~).

Download the standardized language use inventories (PDF)

~~Using the following system, the ACCESS for ELLs® and the language use inventory together produce a single score. If that score exceeds the state-defined threshold, then the student is eligible to be reclassified.~~

~~When the process is completed use Appendix G2 to record the results.~~

Using the following system, the ACCESS score and points from the language use inventories together are used to determine if the student is eligible to be reclassified.

Districts are free to develop their own form of documenting the reclassification decision for ELs, but it must, at a minimum, include the information contained on the sample form below:

Download the sample reclassification cover sheet (Word)

Two language use inventories must be completed. An ESL teacher must complete one of the inventories when possible. The other inventory may be completed by a single content teacher or a team of content teachers. In cases in which an ESL teacher cannot complete an inventory (e.g. students whose parents have refused services and who are not seen by an ESL teacher or ELs in higher proficiency levels who do not work with an ESL teacher regularly), both inventories may be completed by content teachers or teams of teachers. If only one teacher can accurately complete the inventory (e.g. elementary classes in which the classroom teacher is ESL certified and provides both content and language instruction and there is no other teacher or administrator who can accurately complete the inventory), one inventory may be completed and the single score is multiplied by two. **The two inventories do not need to agree.**

The language use inventories must be completed prior to the release of ACCESS scores each year for students who, based on teacher input and previous ACCESS scores, are likely to reach the threshold (4.5 Overall Composite Proficiency Level). Once ACCESS scores are released, ~~the points are added to the~~ points from the rubrics are used to determine if students are eligible to be reclassified.

A reclassification rubric scoring sheet can be downloaded and used to record the scores and recommendations.

[Download the reclassification rubric scoring sheet \(PDF\)](#)

[Download the reclassification rubric scoring sheet \(Excel\)](#)

NOTE: In some cases, students who were not identified as likely to reach the ACCESS score threshold and for whom no language use inventories were completed will unexpectedly achieve a score exceeding the threshold. Language use inventories may be completed after ACCESS scores are released in these limited cases, but they must be completed prior to October 1 of the following school year.

Students are NOT eligible for reclassification unless they achieve an overall composite proficiency level score of 4.5 or higher. There are no exceptions.

The reclassification window begins when ACCESS scores are published and ends on October 1 of the following school year. Although language use inventories must be completed as part of the reclassification decision-making and evidence-gathering process prior to the opening of the window, no changes to a student's status can be made in local data systems or in PIMS between October 1 and the date on which the district receives ACCESS scores each year.

Districts must develop local plans for how to:

- select content teachers who will complete the inventories
- manage the decision-making/reporting process using this procedure and these criteria
- train staff to use the rubrics and evaluate the students' language use
- hold teachers accountable for completing the inventories
- select students for whom inventories will be completed in anticipation of qualifying ACCESS scores

Each language use inventory produces a single score and the sum of the two inventory scores is ~~added to the ACCESS for ELLs® points assigned~~ used to determine if the student meets the minimum threshold for reclassification based on their ACCESS score (see the “threshold for reclassification” below).

The following tables display the points possible from the language use inventories:

Language Use Inventories		Initial	Transitional	Independent
ESL Teacher	Listening	0	0.5	1
	Reading	0	0.5	1
	Speaking	0	0.5	1
	Writing	0	0.5	1

Language Use Inventories		Initial	Transitional	Independent
Content Teacher	Listening	0	0.5	1
	Reading	0	0.5	1
	Speaking	0	0.5	1
	Writing	0	0.5	1

Total possible points from both inventories 8

Threshold for reclassification

Students with lower qualifying ACCESS scores (4.5–4.8) must demonstrate stronger and more consistent *Independent* language use in the classroom to support reclassification. As ACCESS scores increase, fewer rubric-based confirmations are required. This approach ensures that reclassification decisions reflect both standardized assessment data and observable language performance, with additional scrutiny applied to students whose ACCESS scores are closer to the eligibility threshold.

ACCESS Proficiency Level Score	Minimum combined language use inventory score	NOTE: Students who do not achieve an overall composite proficiency level of 4.5 or higher are NOT eligible for reclassification. There are no exceptions.
4.5 – 4.8	At least 7.0 points	
4.9 – 5.2	At least 6.0 points	
>5.2	At least 5.0 points	

When a student achieves the minimum reclassification scores, they *should* be reclassified. However, if there is compelling, documented evidence indicating that a student should remain identified as an English Learner despite exceeding the cutoff, and this evidence is maintained alongside the ACCESS score report and language use inventory, the student's EL status may be retained.

The following tables display the points possible from the ACCESS for ELLs® and the language use inventories:

ACCESS Proficiency Level Score	Points Assigned
4.5-4.7	3.6
4.8-5.0	4.5
5.1-5.3	5.8
>5.3	8.4

Language Use Inventories	ESL Teacher			Content Teacher		
	Low	Moderate	High	Low	Moderate	High
Interaction	0	0.3	0.5	0	0.3	0.5
Listening	0	0.3	0.5	0	0.3	0.5
Speaking	0	0.3	0.5	0	0.3	0.5
Reading	0	0.3	0.5	0	0.3	0.5
Writing: Cohesion	0	0.2	0.3	0	0.2	0.3
Writing: Word/Phrase	0	0.2	0.3	0	0.2	0.3
Writing: Grammar/Sentences	0	0.2	0.3	0	0.2	0.3
Writing: Genre—Narrative	0	0.2	0.3	0	0.2	0.3
Writing: Genre—Report & Essays	0	0.2	0.3	0	0.2	0.3
Writing: Genre—Arguments	0	0.2	0.3	0	0.2	0.3

Total possible points from both inventories 7.6

Total Possible Points from all components: 16

Threshold for reclassification: 10.5

When this reclassification score is equal to or greater than the cutoff, then a student *should* be reclassified. However, if there is compelling evidence to suggest that a student should remain

~~identified as an EL when his/her score exceeds the cutoff, and this evidence is documented along with the ACCESS for ELLs® score report and language use inventory forms, then the EL status may be retained.~~

ELs with Disabilities - taking the ACCESS for ELLs®

An EL with a disability who has not met the criteria outlined above may be considered for reclassification if:

1. The student has an IEP at the time of the reclassification decision (it is not necessary for the student to have had an IEP for the duration of their enrollment in the LIEP), AND
2. The student has been continuously enrolled in an LIEP for at least four years, AND
3. The student's overall composite proficiency level score SCALE SCORE* on the ACCESS for ELLs® has not increased by more than 10% between any two years or total over the three most recent testing cycles (the current year and the two preceding years), AND
4. The school has documented evidence* that the student has been provided with the appropriate level of language support, including ELD instruction, throughout his/her enrollment in the LIEP, AND
5. A school-based team recommends reclassification. See below for team composition and recommendation protocol.

* For students who cannot complete all four domains of the test as a direct documented result of their disability, the state has adopted a method for calculating an overall composite score with fewer than all four domains. LEAs may use the overall composite score calculation tool (for ELs with disabilities) linked below.

[Download the OaCS Calculation Tool \(Excel\)](#)

Please review the instructions for using this tool on the first tab before proceeding.

This tool may **only** be used for students who have IEPs and documented disabilities that prevent them from participating in up to two domains of the ACCESS or Alternate ACCESS.

**Documented evidence can include schedules indicating ELD instructional times, specific language supports used, ELD curriculum indicating areas of language instruction covered, language use evaluations based on WIDA rubrics or PA reclassification rubrics, modifications made to assessments, IEP addressing ELD instruction or language needs, etc.

To calculate the percent difference between scores, use the following formula:

$$\Delta \text{OCPL} \text{ OCSS} / \text{OCPL1} \text{ OCSS1}(100) = \% \text{ change}$$

~~*Δ OCPL: Difference between the overall composite proficiency level from year one and year two, year two and year three, or year one and year three*~~

~~*OCPL1: overall composite proficiency level from the first of the two years being compared*~~

For example, the percent difference between a score of 4.3 and 4.5 is $(.2/4.3)*100$, which is 4.65%.

Where,

Δ OCSS is the difference between the overall composite scale score from one year to the next, and

OCSS1 is the overall composite scale score from the first of the two years being compared.

For example, the percent difference between a score of 250 and 268 is $(18/250)*100$, which is 7.2%.

Remember, calculations must be made for *year 1 and year 2, year 2 and year 3, AND year 1 and year 3 to determine eligibility.*

Year 1 is the score from two years prior to the current year; year 2 is the score from the previous year; and year 3 is the score from the current year.

A student is only eligible for reclassification when the gain is less than 10% for each of the three calculations. In other words, the change between year 1 and year 2, year 2 and year 3, and year 1 and year 3 must all be less than 10%.

You may also use the [ACCESS score eligibility calculation tool for ELs with disabilities](#) (Excel) to determine if the student's ACCESS growth makes them eligible for reclassification. This tool will make each of the calculations based on the student's scores, determine reclassification eligibility for each calculation, and determine overall eligibility.

School-based team composition and recommendation protocol:

The following individuals must be included on the team that considers the body of evidence and determines whether to reclassify an EL with a disability:

- At least one expert on the student's English language acquisition
- At least one expert on the student's special education goals and services
- At least one expert on the student's general education content achievement
- At least one family member (and any requisite interpreters/cultural liaisons)
- Any related service providers who work with the student

A single team member may fill more than one of the roles identified above.

Also, the team members are not required to meet in-person at the same time, although that is ideal. As long as input from each team member is collected and considered and they are able to answer the questions below, then any format or process is acceptable.

High Priority Evidence to consider:

- Standardized or curriculum-based assessments special education teachers and related service providers use to monitor students' progress towards IEP goals that are relevant to developing English language proficiency
- Classroom observations of students' language use
- Language samples demonstrating listening, speaking, reading, and writing skills
- Student work samples or portfolios
- Teacher input on students' English language development progress
- Family input on students' language development and use at home
- Data related to how the student was initially identified as an EL

- Review of English learner services across the most recent four years to ensure the student has received adequate English language development instruction and language support for content learning during that time

Evidence to consider if available:

- Assessments that evaluate students' proficiency in their home/primary language
- Language use inventories
- Comparable data from similar EL peer group (other ELs with similar profiles)

Questions that must be addressed by the team:

1. Has the student received adequate ELD instruction and language supports commensurate with his/her ELP level for the most recent four years?
2. Is this student able to effectively communicate in English?
3. Is the EL making progress toward meeting PA Core Standards in listening, speaking, reading, and writing on par with ELs who have similar profiles?
4. Are any ACCESS for ELLs domain scores that affect the student's ability to reach an overall composite proficiency level of 4.5 directly related to the student's disability (e.g., the student has a disability that affects their oral language, and the depressed oral language score is preventing them from achieving an overall composite proficiency level of 4.5)?

If the answer to any of these questions is 'no', then there may be insufficient evidence to recommend reclassification because the student may benefit from continued participation in the LIEP. In this case, the team must carefully consider allowing the student to remain in the LIEP until the answer to all of the above questions is 'yes' (i.e., at least one more school year). ~~the student's continued participation in the LIEP until such time that the student will no longer benefit from continued specialized English language development instruction and supports.~~

~~See Appendix E for a sample reclassification cover sheet.~~ Districts are free to develop their own form of documenting the reclassification decision for ELs with disabilities, but it must at a minimum include the names of the team members involved, the evidence that was analyzed, the student's current ACCESS scores, and answers to the four questions above. The form should be filed with the student's permanent record.

Download a sample reclassification cover sheet for ELs with disabilities (Word)

ELs with Disabilities (taking the Alternate ACCESS for ELLs®)

ELs who are eligible for and take the Alternate ACCESS for ELLs® may be considered for reclassification when:

- ~~1. they achieve a score of at least P2 on two consecutive administrations of the test OR achieve the same score for three consecutive administrations of the test, AND~~
2. They achieve an **overall composite proficiency level score of at least 4** on the Alternate ACCESS;
3. The district has documented evidence that appropriate and adequate language supports have been systematically provided by a licensed ESL teacher or a licensed teacher working with an ESL teacher for the duration of the student's enrollment in their LIEP; and
4. the IEP team, with input from an ESL/bilingual education professional, recommends reclassification.

* Some ELs with disabilities may not be able to participate in all four domains of the ACCESS or Alternate ACCESS. For ELs whose disabilities prevent them completing all four domains of the test and who are being considered for reclassification under the criteria for students with disabilities, the state has adopted a method for calculating an overall composite proficiency level with fewer than all four domains linked below.

[Download the OaCPL Calculation Tool \(Excel\)](#)

A reclassification cover sheet is not required for English learners who take the Alternate ACCESS, as reclassification decisions for these students are made through an IEP team meeting and are documented within that process.

Although language use inventories are not required for ELs with disabilities as part of the reclassification process, teachers should consider completing them in cases where it is appropriate as a way to document language proficiency at the time of reclassification and for future reference if needed.

For more detailed guidance related to ELs with disabilities, please see the guidance contained on the Bureau of Special Education website at www.pattan.net.

Monitoring of former ELs

Districts must include in their LIEP uniform procedures in accordance with state requirements for actively monitoring the progress of former ELs (FELs) for a period of two years after reclassification and reporting FELs to the state for an additional two years (total of four years of monitoring status).

Active Monitoring Period – first two years after reclassification

Districts must ensure that ELs in the first two years after reclassification do not struggle academically as a result of persistent language barriers. In order to do this, districts must develop and implement a process for actively monitoring students' progress and achievement in the general academic program delivered without specialized, planned language supports.

Districts are free to create their own process, but it must, at a minimum, include tracking student progress in all core academic classes and soliciting feedback from core academic teachers periodically throughout the school year with sufficient frequency to preclude a student falling significantly behind.

Additional monitoring period – third and fourth years after reclassification

Districts are required to continue reporting FELs to the state in PIMS for an additional two years after the active monitoring period. Districts are not required to actively monitor the progress and academic achievement of ELs in the general education program during these years. At the end of the fourth year after reclassification, ELs are coded as *Former ELs – no longer monitored* for the remainder of their time in school.

Re-designating former ELs

If it is determined during the active monitoring phase that an EL is struggling academically as a result of persistent language barriers, then the district must have plans in place to re-designate that former EL as an active EL and re-enroll him/her in the LIEP. The district must demonstrate that the FEL is struggling as a result of persistent language acquisition needs and not academic needs, which require academic supports and/or interventions.

FELs who have been re-designated as active ELs must meet the state-required criteria to be reclassified as FELs. In cases such as these, the monitoring process starts over from year 1 upon the second reclassification.

Dear parent/guardian,

Based on teacher observations and the annual English assessment (ACCESS for ELLs), your child has demonstrated proficiency in English. Therefore he/she will be reclassified as a former English learner and removed from the district's language instruction educational program. Your child will be monitored for the next two school years to ensure that he/she does not encounter any challenges resulting from English language acquisition. If it is determined that there are lingering English language acquisition needs, then he/she may be placed back into the language program. The scores from the English assessment and the teacher observations are listed below along with the recommendation to reclassify the student. If you have any question, you may contact:
