STUDENT PERFORMANCE

MEASURE TEMPLATE

LEA Selected Measures

Guidance on Template Use

The Student Performance Measure (SPM) Template, crafted as a customizable document, is designed to facilitate active participation in the evaluation process while:

- Aligning an identified student challenge or need to related school-level objectives and/or LEA-level priorities,
- Encouraging instructional innovation based on latest research and trends, and
- Improving educator practice.

The use of this template is optional; however, a Student Performance Measure (SPM) is required as part of the evaluation of Educator Effectiveness for professional employees serving as classroom teachers and for the interim rating of all professional employees.

At the beginning of the rating period: *(Initial Conference)*

- ✓ Prior to the initial conference, the educator should reflect on student challenges/needs and draft a plan of action, referencing the Framework for Observation and Practice to inform the response.
- ✓ During the initial conference, the educator and supervising administrator should review and revise the draft, as appropriate, aligning the work to related school-level objectives and/or LEA-level priorities.
- ✓ During the initial conference, the educator and supervising administrator should agree upon the student performance measure(s) and criteria for delineating the four levels of student performance used to inform the educator rating. If using multiple measures, the educator and supervising administrator should pre-determine the proportional significance (i.e., weighting) to be assigned to each measure.
- ✓ **Part I** and **Part II** of the SPM Template should be completed, with the educator and supervising administrator providing signatures, dates, and any comments in the Initial Conference and SPM Approval fields under **Part V**.

During the agreed-upon interval of the rating period: *(Mid-Point Review)*

- ✓ Prior to the mid-point review, the educator should complete the Mid-Point Reflection field under **Part III**.
- ✓ During the mid-point review, the educator and supervising administrator should examine initial evidence of student performance and discuss progress, unanticipated barriers, and needed supports, revising the SPM Template as appropriate and agreed upon by the educator and supervising administrator.
- ✓ The educator and supervising administrator should sign, date, and provide any comments in the Mid-Point Review field, and if applicable, the SPM Revision Approval field, under **Part V**.

At the conclusion of the rating period: *(End-of-Rating Review)*

- ✓ Prior to the end-of-rating review, the educator should complete the Final Reflection field under **Part III**.
- ✓ During the end-of-rating review, the educator and supervising administrator should examine final evidence of student performance and discuss successes, unanticipated barriers, and any supports that might have been useful to the educator, which shall be used cumulatively to inform the Educator Rating in **Part IV**.
- ✓ The educator and supervising administrator should sign, date, and provide any comments in the End-of-Rating Review field under **Part V**.
- ✓ The rating in **Part IV** should be entered into the LEA-Selected Measures section of the corresponding PDE rating form to be factored as part of the overall rating of Educator Effectiveness for the professional employee.

PART II**Student Performance Measure (SPM)**

Describe the LEA Selected Measure(s):

Increasing Assessment Prompts during Instruction

What student performance evidence or artifacts will you use to measure the progress and effectiveness of your response? 

☒ Locally Developed School District Rubric

☐ District-Designed Measure & Examination

☐ Nationally Recognized Standardized Test

☐ Industry Certification Examination

☐ Student Projects Pursuant to Local Requirements

☐ Student Portfolios Pursuant to Local Requirement

Evaluation

Describe the specific criteria that will inform the Educator Effectiveness rating.

NOTE: Student Performance Measures may be reused on an annual basis if the responses are updated and the educator continues to offer reflections.

Distinguished: Teacher demonstrates advanced proficiency in analyzing various types of assessment data, including formative, summative, and standardized assessments. Able to identify nuanced trends and patterns in student performance and use this information to inform targeted instructional strategies. Consistently integrates qualitative and quantitative data to gain comprehensive insights into student learning.

Proficient:

Teacher competently analyzes assessment data to identify general trends and patterns in student performance. Utilizes data to make informed instructional decisions and adjustments. Can interpret basic quantitative data and draw relevant conclusions to inform teaching practices.

Needs Improvement:

Teacher shows inconsistency in analyzing assessment data effectively. Struggles to identify meaningful patterns or trends and may rely on superficial interpretations of data. Requires additional support and training to develop skills in data analysis and interpretation.

Failing:

Teacher demonstrates a lack of understanding or ability to analyze assessment data. Unable to draw meaningful insights or make informed instructional decisions based on data. May disregard or misinterpret data, leading to ineffective teaching practices.

Considerations

What is the current context, corresponding evidence, and/or anecdotal information that informs your identification of this challenge or need?

- What indicators led you to identify this challenge/need?
- Why did you choose this student challenge/need as a priority?
- What internal and/or external factors are driving this student challenge/need?
- What population(s) of the school community will be affected by implementing this response?

[⬆ BACK TO ROW](#)

What is your proposed response?

- Why did you choose this response?
- How did you determine the appropriateness of this response to the identified challenge/need?
- How does your response align with school-level objectives and/or LEA-level priorities?
- Is your response supported by research-based best practices and/or educational innovation?

[⬆ BACK TO ROW](#)

What resources are available to assist you in addressing the student challenge/need?

- What expertise do you possess to respond to the student challenge/need?
- How are identified resources appropriate to the response?
- How does collaboration contribute to the available resources and/or expertise?

[⬆ BACK TO ROW](#)

If applicable, what additional expertise, resources, and/or other supports would assist you in meeting the student challenge/need?

- What obstacles exist to your response to the student challenge/need?
- What resources are needed to overcome these obstacles (budgetary, material, time, professional learning, and/or personnel)?
- What might the role of collaboration be in overcoming these obstacles?
